

# THE PORTSMOUTH HERALD

VOL. XXX., NO. 280.

PORTSMOUTH, N. H., MONDAY, AUGUST 30, 1915.

Portsmouth Daily Republican Merged  
with THE HERALD July 1, 1902.

PRICE TWO CENTS.

## GERMAN SOLDIERS ARE HANDICAPPED

### Terrific Storms in Western Russia Have Swollen Rivers, Preventing Advance of Troops

(Special to The Herald)  
Petrograd, Aug. 30.—Terrific storms  
are raging in western Russia. Rain  
has swollen the rivers until they are  
out of their banks and the marches  
along the Pripiet river, and the tribu-

aries of the Dnieper and Bug are be-  
coming impassable morasses. The  
German troops will be greatly handi-  
capped in their advance by the heavy  
rains which are the beginning of the  
fall storms.

## SUBMARINES RESUME OPERATIONS

### British Steamer Sir William Stephenson Sunk by Ger- man Undersea Craft.

(Special to The Herald)  
London, Aug. 30.—After a lull of 48  
hours, German submarines resumed  
their operations today. The destruction  
of the British steamer Sir William  
Stephenson was announced this after-  
noon. The ship was a vessel of 1,510  
tons.

### WILL REPRESENT BELLIGERENT COUNTRIES

(Special to The Herald)  
Washington, D. C., August 30.—Am-  
bassador Morgenthau at Constantin-  
ople has reported to the state depart-  
ment that he has taken over the in-  
terests of Russia, Italy and Monte-  
negro in the Turkish capital.

What addition, Ford Constitution, N. H., sealed  
proposals for what addition here will be re-  
ceived until 12 M. Sept. 25, 1915. Information on  
application to Quartermaster  
Bangs 30.31, Sept. 2, 23, 24

## SEVERE DAMAGE INFLICTED BY ARTILLERY

### On the German Trenches in the Argonne District Is Announced.

(Special to The Herald)  
Paris, Aug. 30.—Severe damage was  
inflicted on Sunday night by French ar-  
tillery on the German trenches in the  
Argonne, the war office announced to-  
day. The chief operations centered  
about Courtes, Chaussees, Montissans,  
and Bolante. While the artillery was  
shelling the German trenches, French  
shoppers also operated successfully  
with mines, while the infantry hurled  
bombs and grenades from its position  
into the enemy's pit.

### OCEANIC WILL CLOSE

The Oceanic, Isles of Shoals, closed  
for the season on Tuesday when the  
steamer Juliette makes her last trip  
for the season. The steamer Sam Ad-  
ams will run until September 15th,  
when the Appledore Cottages close.

Cold wave spreads over Middle West  
and Eastern states.

## WILL THERE BE A SETTLEMENT IN THE COWLES CONTEST?

### Entire Morning Session is Consumed in Conferences of Counsel With Chief Justice Pike Behind Closed Doors —Adjournment Taken to Two O'clock

## BOTH DUELISTS DYING IN HOSPITAL

(Special to The Herald)  
Philadelphia, Aug. 30.—While 500  
persons looked on Vincenzo Russo, 38,  
and Anthony Nalunum, 40, fought a  
duel with revolvers in the shadow of  
old Moyamensing prison. They stood  
behind a tree and began firing at each  
other. Both fell with bullets in vital  
parts of the body, and both are dying  
today in a hospital.

A report from London states that the  
Welsh coal mine strike is expected to  
be settled today.

The contested divorce case of Mrs. Florence J. Cowles of  
Boston against her husband, Dr. Edwin S. Cowles of this city,  
served to draw a fair sized crowd of spectators, the most of  
whom were women, to the Rockingham county court room  
this Monday morning. The case, if tried, is to be heard by  
Chief Justice Robert G. Pike of Dover and is said will be bit-  
terly contested owing to the fact that both of the contestants  
desire the possession of their two girls, Mary Haywood, aged  
5, and Harriet Virginia, aged 4. A long list of witnesses have  
been summoned on both sides and were present at the court  
house at the appointed hour. Those who had attended out of  
morbid curiosity were doomed to disappointment as the morn-  
ing session up to the noon hour was devoted to several con-  
ferences between Chief Justice Pike and counsel for the con-  
testants.

Shortly before 10 o'clock Dr. Cowles  
arrived at the court room accompanied  
by eight women, mostly all of whom  
were heavily veiled against the hun-  
dred of out of town camera men  
who lined up at the court house en-  
trance on State Street. Dr. Cowles and  
his witnesses took seats on the left  
hand side of the enclosure reserved  
for members of the bar and witnesses.  
After Dr. Cowles and the witnesses  
on his side were seated, the doctor  
was continually moving about among  
them smiling and carrying on a con-  
versation relative to the case.

Mrs. Cowles, accompanied by her  
mother, Mrs. Harry J. Jephth, and  
her attorneys, Judge Ernest L. Gupitt  
and Col. John H. Bartlett, came in a  
few minutes later. A short time elapsed  
before Mrs. Cowles and her mother  
were escorted to a chair. At the time,  
Dr. Cowles was on the opposite side  
of the court room and Mrs. Cowles  
took a chair directly in front of her  
husband. She was dressed in a dark  
blue suit with black velvet hat and  
wore a net of summer furs. She smiled  
and called the attention of her mother  
to the activity of the several report-  
ers who were busily engaged with  
Sheriffa Spencey and Shaw attempting  
to get table space and chairs for their  
work.

At half past ten Mrs. Cowles and  
her mother and the attorneys for both  
sides were called to the judge's room  
for conference, which it is thought will  
result in a settlement of the case out  
of court. The conference lasted up to  
12 o'clock when Judge Pike made his  
first appearance in the main court  
room where he announced that an ad-  
journment would be taken until two  
o'clock.

As the spectators and the witnesses  
filed out of the court house, the wit-  
nesses again dodged the photographers  
every way possible on State street, and  
it was evident that the women espe-  
cially, were anxious to avoid all no-  
tice in the case which has attracted  
much wide attention since  
Mrs. Cowles instituted proceedings for  
divorce.

In the libel brought by Mrs.  
Cowles against the doctor she charges  
him with improper relations with Miss  
Elly Arutz during the summer and fall  
of 1914. In an undated bill filed at  
a later date Mrs. Cowles names three  
other women as co-respondents, Ann  
Wright of Westfield, Conn., Miss Flo-  
rence Murphy, well known in society  
circles in Boston, and Miss Edith L.  
Marsh of Winchester, Mass. Mrs.  
Cowles alleges that the doctor met  
Miss Murphy in 1914 in Boston and  
that he met Miss Marsh in Winches-  
ter on Nov. 23, 1913. She further charges  
him with conduct injurious to her  
health and mind and alleges that his

## ITALIAN TROOPS INVADE TURKEY

### Believed to Be Landing on Gallipoli Peninsula or Near Smyrna

(Special to The Herald)  
Athens, Aug. 30.—Several transports  
carrying Italian troops have reached  
the Turkish coast, according to dis-  
patches received from Mitylene, and  
several regiments have effected a land-  
ing. The message does not state at  
what point the Italians are landing but  
it is believed to be on Gallipoli penin-  
sula or near Smyrna.

## U. S. AGENT HAS MEETING WITH VILLA

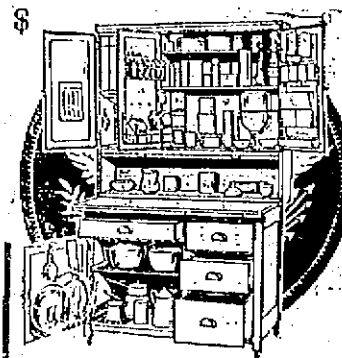

(Special to The Herald)  
El Paso, Aug. 30.—General Villa, ac-  
companied by his staff and a guard of  
500 men, has arrived at Durango on a  
special train from Torreon. Accom-  
panying the party was George Carath-  
ers, confidential agent of the State De-  
partment, who has a meeting with  
Villa. According to private messages  
received by Villa agents on the border,  
the Carranza troops who evacuated  
Durango on Thursday have gone  
southward.

The Department of Justice will in-  
vestigate the blowing up of the pow-  
der mill at Acton, Mass., on Sunday.

## ACCEPT PEACE PROPOSALS

(Special to The Herald)  
Washington, D. C., August 30.—Offi-  
cial advices that Zapata and his three  
chief generals have accepted the pro-  
posals of Secretary Lansing and the  
Latin-American envoys for a peace  
conference, reached the state depart-  
ment today.

## SPECIAL FOR 10 DAYS

COR. CONGRESS AND FLEET STREETS

(Continued on Page Five.)

## CORSET ECONOMY

It is real economy to buy a good corset—provided this  
corset is accurately fitted to your figure.

You've heard of the famous one horse shay—how it stood  
the hardest wear for one hundred years and a day and then  
went all to pieces at once.

Now we do not guarantee even the best corset to last one  
hundred years and a day, but—a good corset will last as long  
proportionately if it fits you right, and no part will wear out  
before its time.

## Redfern Corsets

are good corsets. There are no weak spots in a Redfern. The  
cloth is as good as the boning—the boning as good as the gar-  
ters—every detail in perfect accord with the rest. We know  
them from experience—the best possible materials at every  
price.

Then our corset service guarantees you a perfect fit. Care-  
ful personal attention by our skilled corsetieres insures every  
possible benefit in fitting the Redfern model that is proper for  
your figure.

The result is a corset that fits comfortably and fashionably  
and will afford the maximum service and wear.

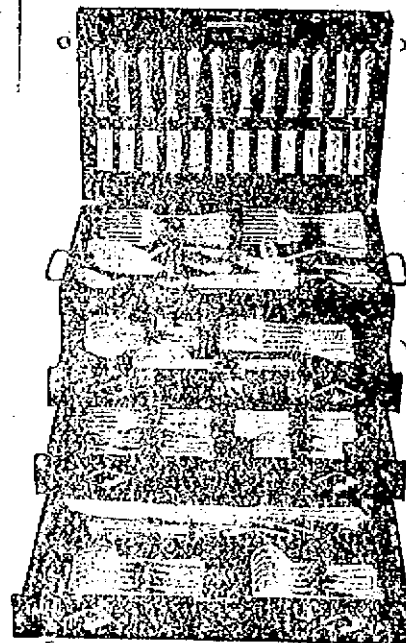

May we make an appointment?

## GEO. B. FRENCH CO.

## Don't Forget Registration Day SATURDAY Of This Week

Remember that just for writing your name  
in our Guest-Book, you will receive 50 Booster  
Coupons, which you may keep or give to one  
of your Booster friends.

Next Monday the first count of Booster  
Coupons will be made. Help your favorite to  
stand high.

The Booster Club can be made a source of pleasure and entertainment for your  
patrons and friends. We want you to feel, and make your friends feel, that our  
store is your headquarters.

PATRONS, beginning with next Monday's count of coupons, the race will be  
on for the weekly prizes of beautiful silverware. Come to the store and see them.  
Talk it over with your Booster.

In case of a tie, duplicate certificates will be awarded.

# PORTSMOUTH TEAMS HAD A BAD DAY

Exeter Wins Here, 7 to 3 While East Rochester Took Game by 6 to 5 Score Saturday

Portsmouth was defeated Saturday by Exeter in a decidedly loose game, 7 to 3, earning but two of their runs. Portsmouth earning all three of theirs. The game looked good until the eighth inning when the visitors came back strong and with a few hits and errors on the part of the home team, pushed five runs across the plate. Marden at short made three fine plays but spoiled the day by two costly errors. Mulholland was a disappointment in the fact that out of five times at bat he failed to connect. Portsmouth had men on bases several times but Irvine lightened up and the necessary hits were lacking.

## The Game

1st inning.—Connor tied to McPheters at third. Irvine tied to Lynskey in left. P. Walsh was out at first. McPheters to Howard. No runs.

R. Brackett drew a pass. McPheters sacrificed. Irvine to Glover. Tredek was walked. Mulholland forced him at second. Sheehan to P. Walsh. Mulholland stole third. O'Brien was passed, filling the bases. Howard was out on a grounder to Glover at first. No runs.

2d inning.—R. Walsh tied to Tredek. Glover was thrown out at first. Moran to Howard. Sheehan was passed. Howe fanned. No runs.

Lynskey tied to P. Walsh. Marden was out at first. Irvine to Glover. Moran fanned. No runs.

3d inning.—Elmer and Glover both fanned. Connor singled to second. Irvine made the third out by fanning. No runs.

R. Brackett singled to left. McPheters sacrificed. Irvine to Glover. Tredek singled a hot one to Connor at third. Mulholland fanned. He stole second. Mulholland was out on a foul fly to Glover at first. O'Brien hit to P. Walsh at short who fumbled the ball. Brackett scoring. Howard fanned. One run.

4th inning.—P. Walsh hit one too hot for Tommie Marden to handle and was given credit for a hit. R. Walsh tied to Mulholland to hit. Covey forced Walsh at second. Tredek to Marden, who came close to finishing the double play. Sheehan singled to left. He was out stealing. Brackett to Tredek. No runs.

Lynskey doubled to center. Marden sacrificed. Irvine to Glover. Moran singled to second, scoring Lynskey. R. Brackett singled to left. McPheters advanced both runners with a sacrifice. Irvine to Glover. Tredek tied to Covey in center. One run.

5th inning.—Howe fanned. Elmer was out at first. Marden to Howard. Glover was out on a foul fly to Howard at first. No runs.

Mulholland was out at first. Irvine to Glover. O'Brien walked. Howard singled with an infield hit. Lynskey was out at first. Sheehan to Glover. Marden was out at first. Irvine to Glover. No runs.

6th inning.—Connor was hit by a pitched ball. Irvine sacrificed. Moran to Howard. P. Walsh was out at first. Marden to Howard, advancing Connor to third. R. Walsh was safe at first on Marden's error. scoring Connor. Covey singled, advancing R. Walsh to second. Covey and R. Walsh pulled a double steal. Walsh scoring when Tredek stuffed the throw from Brackett to prevent the steal. Covey stole third. Sheehan tied to Lynskey in left. Two runs.

Moran was out. Connor to Glover. R.

Brackett fanned. McPheters tied to Howe in left. No runs.

7th inning.—Howe fanned. Elmer was out at first. Marden to Howard. Glover fanned. No runs.

Tredek singled. Mulholland was out at first. Glover to Irvine. Tredek advancing to third. O'Brien and Howard were struck out. No runs.

8th inning.—Connor hit to third, the ball taking a bad bound and going over McPheters' head. Irvine hit to McPheters and was safe on his error. Connor going third. P. Walsh singled, scoring Connor. Walsh was caught napping off first. Brackett to Howard. R. Walsh hit to left for two bases, scoring Irvine. Covey singled past short and Walsh was declared out for interfering with Marden. Covey going second as the ball went to the out field. Covey stole third. Sheehan and Howe were passed. Elmer hit to right for two bases, bringing in three runs. Glover was out on a grounder to Howard. Five runs.

Lynskey was thrown out at first. Irvine to Glover. Marden was out at first. Connor to Glover. Moran fanned. No runs.

9th inning.—Connor was out on a foul fly captured by Brackett. Irvine was out at first. McPheters to Howard. P. Walsh was safe at first on Marden's error. R. Walsh tied to Tredek. No runs.

R. Brackett fanned. McPheters hit to left for three bases. Tredek singled to right, scoring McPheters and going second on P. Walsh's error. Mulholland tied to Glover. O'Brien tied to R. Walsh. One run.

East Rochester Defeated All Stars

The Portsmouth All Stars were de-

MANAGER WILBERT ROBINSON, DEVELOPS

STRONG PITCHING STAFF FOR BROOKLYN.

Brooklyn, Aug. 30.—The present baseball season has furnished many surprises and disappointments in the work of the pitchers. Many of last season's stars have failed to display the form that carried them to their teams to the front last year. There have been two notable cases of stars of years ago coming to their own again—Jack Coombs, formerly of the Athletics and now pitching winning ball for Brooklyn, and Joe Wood of the Boston Americans, who is pitching with the same effectiveness that he did in 1912, after having experienced two poor seasons. Farther than this,

more youngsters have made good this season than in almost any two previous seasons combined. With the race in the National league so close, the final standing in all probability will be decided on the merits of the various pitching staffs. In this respect Brooklyn has the edge on the other clubs. While the stars of some of the other teams have been endeavoring unsuccessfully to round into their form of a year ago, Robinson has developed a staff of veterans and youngsters that is easily the class of the league at the present time. Since Robinson took hold the Brooklyn hurlers began to show signs of improvement and have continued to improve until at present

they are feared by every team in the league. With the exception of Rucker, Robinson has rebuilt his entire staff, and he has shown rare judgment in picking mound men. Last year he developed Pfeffer, while this year he has brought out Smith, Dell and Appleton. If a manager develops one first class hurler during a season he is usually satisfied. Robinson not only has developed three good men, but he also secured Coombs, thereby proving to his followers that he is one of the best judges of pitchers in the game. Pictures show four of Brooklyn's star hurlers. No. 1, Appleton; No. 2, Rucker; No. 3, Dell; No. 4, Jack Coombs.

## MILITARY DEFENSE AT HONOLULU

Honolulu, Hawaii, U. S. A., Aug. 29.—The development of American military defense on the island of Oahu is especially striking with the completion of the work that has within the past few weeks cost more than \$2,000,000. New batteries have been installed in the crater of the famous Diamond Head, whose picturesque slopes first greet the traveler in approaching the island by steamer. Fort Shafter has quadrupled in size with the additions and extensive improvements. The fact may not be generally known, however, that the great Pearl Harbor naval station is virtually finished and that it could, if occasion demanded, construct a battleship complete from keel to gun, military top, right at the present time. This statement was made a few days ago by an official connected with the work at the naval station who is in a position to possess intimate knowledge of the progress made at Pearl Harbor. The drydock is expected to be completed within two years.

## BOXING NOTES

TED LEWIS MEETS JACK BRITTON IN BOSTON TUESDAY.

More interest is being shown in the 12 round bout between Ted (Kid) Lewis the English double class fighter and Jack Britton of Chicago than a number of bouts decided at the Alhambra. A. A. between two distinguished outside boxers. Even though Britton and Lewis are not local bred talent the mere fact that they have supplied the fans with the kind of boxing they delight in seeing is enough to create the big interest that is being shown. Both men have everything to look forward to as the contest will be their first in which they have boxed for a decision. Neither one can very well afford to drop the verdict and for this reason alone it is significant that the bout will be a warm one from start to finish. As for their condition both men have trained to the minute for the bout. Lewis is accustomed to any kind of a distance the longer the better.

Britton likes the 12 round distance and has garnered his gait for next Tuesday night's fight with much deliberation. The men will weigh about even which leaves neither one of them having any great advantage over one another at the same time bringing them into the ring in perfect fighting trim.

Delegations of friends from New Haven and many other parts of Connecticut where Britton is well known have secured reservation for the bout while a big gathering of the faithful will come over from New York with Lewis. The latter has become one of the biggest favorites the Knickerbocker City has had despite the fact that he is a native of England. His fighting has won him a popular place in the estimation of the sports there and they rarely fail to miss seeing him box.

## Do You Throw Your Money Away?

If you do not, save it by bringing your old clothes to us to be renewed and repaired. We can many times give you an extra year's wear out of a suit you consider hopeless. Our cleaning department is as near perfection as scientific knowledge and modern equipment can make it. In our dyeing department we make a specialty of turning out work at two days' notice.

# TWO KILLED AT WILMINGTON

The Hadley Yard Building of Du Pont Plant Reduced to Rubbish--Mill at Wayland, Mass., Destroyed Sunday Morning

Wilmington, Del., Sunday.—In a terrific explosion which today killed two men and wrecked the Hadley yard of the Du Pont Powder Company here, shaking the entire city and spreading consternation for miles around, the police, investigating to ascertain the cause of the blast, are considering the possibility that the plant was destroyed by spies in the employ of the German government.

At half past eight o'clock before half of the population of Wilmington was stirring, a tremendous concussion rocked buildings throughout the city as if there had been an earthquake. Hundreds of persons awakened from late Sunday morning slumbers, fearing that it was in fact an earth shock, jumped from their beds and in many instances rushed half clad into the streets.

## Factory Blown to Pieces

Practically the entire Police and Fire Departments raced to the scene of the explosion to find the Hadley yards building a structure 30x10 feet, torn to pieces.

It was known that several men were stationed in the factory every night, and it was feared that there had been considerable loss of life. The police, consequently, with the assistance of the firemen, hastily began search of the ruins. They found, however, the bodies of only two victims, whose names were given by the police as E. J. Cunningham and John Welsh, both of middle age. Cunningham had been terribly mutilated. The body of Welsh badly charred, was recovered from under a mass of wreckage.

So far as the police could learn from the superintendent of the Hadley yards, Cunningham and Welsh were the only men in the powder mill at the time the explosion occurred.

It was found that two magazines had blown up, the cause being a matter of conjecture, although serious consideration was given to the theory that spies had had a hand in tampering with the Du Pont plant, which since the beginning of the European war has been swamped with orders.

## Showers of Window Glass

The Hadley yard was situated close to other small black powder mills,

which were also incensed by the explosion. It was regarded as remarkable that the blast was not followed by a destructive fire, and it was in fear of such a catastrophe that the Fire Department was summoned. The damage, however, was confined to the Hadley yards building itself, although windows of many buildings, stores and houses were shattered by the shock and the city was thrown into a state of terror until the earthquake scare was dispelled.

It was reported today that several suspicious strangers have been observed in the neighborhood of the Du Pont mill for several weeks. This rumor led to close investigation along the theory that these men were spies and had come here to scheme the destruction of the plant to reduce the supply of ammunition manufactured here and shipped abroad for the use of the Allied armies.

Acton, August 29.—The glaze mill of the American powder company, which has been working up to its capacity since the European war broke out, blew up at 2:45 this morning, completely wrecking the building and damaging other mills of the company to the extent of \$5000.

As the mill had shut down last evening at 8 o'clock no one was at the premises and no one was killed. According to older inhabitants, the shock which was felt within a radius of 75 miles was the most severe ever experienced.

The property damage to Maynard amounted to approximately \$1000 which was principally broken glass. The plate glass windows of many business places along Main and Nason streets were completely demolished and windows were broken in various residences, while chimneys toppled all over town. The plaster of the Congregational church was loosened and during the service this morning parts of it fell in the auditorium.

Following the crash thousands of people visited the scene. The explosion was heard in North Berwick, Me.; Portsmouth, Manchester, Nashua and Dover, N. H.; Salem, Haverhill, Wilmington, Fitchburg and numerous

# PRETTY CHILDREN AND INTERESTING FLOATS MARK BABY PARADE'S SILVER JUBILEE

At Asbury Park's Silver Jubilee Baby Parade, marking the twenty-fifth anniversary of the founding of the city, 75,000 persons watched the little ones as they marched and counter-marched along Ocean avenue and into the pavilion, where 7,000 more waited to cheer them. There was cheering when the \$3,000 worth of prizes were awarded. Three of the interesting exhibits are pictured—first, a little "Billy Sundae," second, "Our Dear," and third, a "Circus Clown."

# NAVY LEAGUE WILL TAKE PART IN NATIONAL DEFENSE MOVE

Washington, D. C., August 30.—An announcement was made today that the Navy League will participate in the great conference on National Defense which will be held in Washington on October 4-7, under the auspices of the National Defense League, immediately following the Grand Army of the Republic Encampment.

Tuesday, October 5, has been set aside on the conference program as Navy Day and on this date the Navy League will have complete charge of the program. The League will hold a morning session, to which will be invited all delegates to the conference on National Defense. It is expected that Secretary Daniels and other prominent citizens will address the session. This will be followed by a navy luncheon at one of the principal Washington hotels, and after the luncheon the afternoon will be devoted to a visit to the gun factory of the Washington navy yard by the delegates to the conference. There will be a big reception by the Woman's section of the Navy League. Secretary A. H. Daham, of the League is now arranging details of the navy day at the conference and is making up the list of speakers for the occasion. Mr. Daham will send out invitations to all members of the Navy League to attend the conference.

The National Rifle Association of America has announced that its members will also participate in the conference on National Defense. Secretary Albert S. Jones of the Association has sent invitations to all members of the association to attend the conference, where civilian training in

the use of the military rifle will be one of the most important matters considered. Asst. Secretary of War Breckinridge, who is head of the government board for the Promotion of Rifle Practice will represent the National Rifle Association at the conference if his duties at the war department permit, and there will be other speakers on rifle practice.

The National Defense League has been busy for six months with preparations for the conference on National Defense which is expected to be the greatest gathering ever held in Washington.

The program has been tentatively arranged for the four day's session and the speakers, who will include the foremost men of the country are now being selected. Senator Dr. Don Macabio A. Morales, the distinguished minister from Panama to the United States, has accepted an invitation to speak at the conference. One of the most important matters to be discussed at the conference will be the new Pan-American doctrine, recently suggested in the press by Winfield Jones, secretary of the National Defense League. This doctrine, which if accepted by the Pan-American republics would result in a defensive and offensive alliance of every nation of the western hemisphere with the United States is arousing much attention in the Pan-American countries and is being endorsed by senators and representatives. Many congressmen are reported to favor a solidarity of the United States with the South and Central American Republics, as advocated by the Pan-American doctrine.

other places. The flash of the exploding mill was seen in Woburn and various places, lighting the sky as if it were broad daylight.

A story generally credited here is that the explosion was of an incendiary character. Provision is usually made in event of occasional explosions to have duplicate parts in readiness for an emergency, but since the other glaze mill was blown up three weeks ago in an electrical storm, it is pointed out interested parties might see an advantage in blowing up this last mill, thus crippling the output.

Since the first mill blew up this one has been doing double duty, and its loss, according to rumor, would tie up the entire plant for some time. The glaze mill is where the powder enters its last stage in manufacture.

An official of the powder company however, when asked if he thought the explosion due to incendiarism, said that he saw nothing to make him think so. When asked if the loss of both glaze mills would affect the entire plant, he said that it would tie the company up for a short time only.

A suspicious character was held up this morning shortly after the explosion by patrolman Nicholas J. Driscoll, but he gave a satisfactory account of himself and was allowed to proceed.

The police tonight, after a day of investigation, were unable to cast any light upon the mystery of the explosion. Nobody had entered the mill, so far as could be learned, since it was shut down Saturday, and none of the guards were in the immediate vicinity when the powder went off.

From various circumstances in connection with the case, the belief pre-

valued that the mill was purposely destroyed by some one well acquainted with the vicinity and with the movements of the patrols. For the last few weeks there have been reports that spies were in town, but so far as could be learned the police had no one under surveillance.

A cartridge factory has been opened recently in the vicinity of the powder works and it was understood tonight that until the glaze mill has been replaced work in the filling of cartridge orders will be greatly handicapped. Armed guards have been stationed about the works for several weeks, but the mills are widely separated in an isolated part of the town and the dense woods and shrubbery in the vicinity offer easy concealment for anyone wishing to avoid discovery.

## CHILI TREATS CREW OF THE DRESDEN WELL

Berlin, Sunday.—The Overseas News Agency says:

"Captain Luettcke, commander of the German cruiser Dresden sunk by the British off the Chilean coast, has written to the Lord Mayor of the city of Dresden informing him that the men of the Dresden's crew who escaped from the cruiser and were interned in Chili are being well treated by the Chilean authorities. The commander thanked the Mayor for gifts he had sent to the Dresden's sailors."

Dyspepsia is America's curse. To restore digestion, normal weight, good health and purify the blood, use Burdock Blood Bitters. Sold at all drug stores. Price \$1.00.

# SHORES OF THE U. S. CAN BE PROTECTED ONLY BY SUBMARINES

Washington, D. C., August 29.—"Without a greatly increased number of submarines for our navy the present movement for military preparedness in this country will appear to the other nations of the world as ineffective and absurd," according to a statement today by the National Defense League.

This, in brief, is the substance of the information which will be given President Wilson within the next few days in connection with his efforts to ascertain at hearings needed to put this country in a state of better preparedness for war. Formerly the demand for a big increase in submarines comes from the navy officer and naval experts, but it is significant that this request is backed up by army officers of high rank. Particularly among the coast artillery and the coast fortifications experts is there a strong demand for submarines.

The explanation of this lies in the fact that there are at various points on the shores of the United States, portions of the sea which can be protected only by submarines. This is because fortifications are not built so that the guns may sweep these waters, and the currents are so swift and unchangeable that mines cannot be placed in them with any hopes of definite results.

There has come about therefore the unusual spectacle of a group of army officers joining navy officers in the demand for better submarine protection. That this will have a profound effect on the President in the preparation of his recommendations to Congress in behalf of greater preparedness is accepted as certain in Washington.

A bulwark American submarine building company, according to reports received here today, is operating in Canada so successfully that as soon as the submarine race completed for the Allies, they are put into the water and sent

across the Atlantic under their own power with full war equipment and ready to meet the enemy. The building in Canada which is devoted to assembling boats of the Holland type, is made necessary because of the international law against building them in the U. S. and then sending them to the Allies. A submarine costs about half a million dollars. Three hundred submarines flying the stars and stripes would cost less than a week of actual war, the authorities estimate, and since a submarine can destroy any battleship that floats, a flotilla of 300 of the under-sea craft would be an unfailing insurance against invasion by a foreign foe at any time.

The President will be told that now is the time to engage the talent and resources of the American submarine companies so that not all of their output can be sent to foreign countries.

The National Defense League, which will hold a great conference on National Defense in Washington, October 4-7, immediately following the Grand Army of the Republic Encampment, has for years persistently advocated large appropriations for submarines. Some of the officers of the league declare that the U. S. should have not less than 300 of the under-sea boats.

"With 300 modern submarines," the United States could defy the world, to successfully land troops on American soil."

This statement was made recently by Lieut. C. R. Morrison, chief aide on the staff of Rear Admiral Grant, commander of the Atlantic submarine flotilla and considered the most formidable expert on under-sea craft.

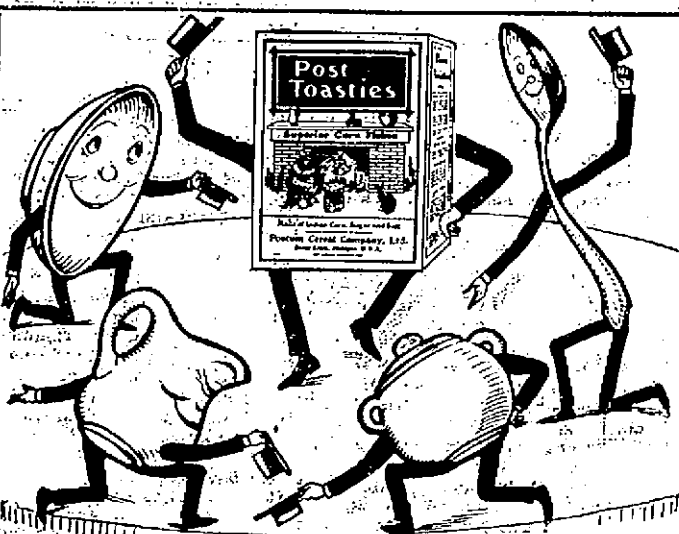

"There is not a foreign nation or even a combination of nations, that could successfully land sufficient troops on American soil to combat even our present army," declared Lieut. Morrison.

New York, August 30.—Play will begin at the West Side tennis grounds, Forest Hills, L. I., today for the national tennis championship. It will continue every week day until the championship is determined.

The bringing of the championship games from Newport to New York, means that a crowd of 7000 persons may watch the play. The advance sale of seats assures good crowds. The courts are only fifteen minutes by electric train from the heart of Manhattan.

## FUNERAL NOTICE

Died in Elliot Aug. 29th, William Johnson, aged 70 years. Funeral services will be held at the home on Fore Road, Tuesday afternoon at 3 o'clock. Friends invited. Interment in Lynn, Mass.

# New Post Toasties

a welcome on any breakfast, lunch or supper table.

The new process of manufacture which imparts these qualities, not to be found in other corn flakes, raises tiny, pearl-like "puffs" on each flake—a distinguishing characteristic of

# New Post Toasties

Your Grocer has them now.

**Ford**

**ANNOUNCEMENT**

The following prices f.o.b. Detroit, effective Aug. 2, 1915:

Ford Runabout	\$380.00
Ford Touring Car	440.00
Ford Town Car	640.00

No speedometer included in this year's equipment, otherwise cars fully equipped

There can be no assurance given against an advance in these prices at any time. We guarantee, however, that there will be no reduction in these prices prior to Aug. 1, 1916.

## Profit-Sharing with Retail Buyers

On August 1, 1914, we made the announcement that if we could make and sell at retail 300,000 Ford cars between August 1, 1914, and August 1, 1915, we would share profits with the retail purchasers, to the extent of from \$10 to \$50 on each car. We have sold over 200,000 Ford cars in the time specified, and profit-sharing checks of \$50 each will be distributed as rapidly as possible after August 15, 1915. Retail purchasers who have not yet mailed us their profit-sharing coupons, properly endorsed, should do so without delay.

Our plan to profit-share with retail purchasers of Ford cars August 1, 1914-1915 has been most successful. We thoroughly believe in it, but, realizing the uncertainty of conditions generally makes it advisable to defer any announcement of future profit-sharing until a later date. We are, however, confident of our inability to reduce costs for several months, and therefore can offer no profit-sharing for cars delivered during August, September and October, 1915.

## The Gospel of Kindness.

The societies that preach and teach kindness to dumb animals are doing a noble work and the world is made better by their efforts, for there is nothing sadder than that the policy of treating animals kindly not only reacts beneficially upon the human race but pays, even if the practice be reduced to the mere plane of dollars and cents.

This was well illustrated a short time ago when a large dairy barn in New Jersey was burned to the ground. There were 200 fancy cows in the stables and they had always been treated so kindly that they were like pets. The result was that when the men who cared for them rushed to the burning building they had no trouble in removing the cows, which, instead of becoming panic stricken, responded promptly to the voices and motions of their keepers and left the scene of danger as quietly as if there had been nothing wrong.

This was a fine illustration of the good results following the kind treatment of animals, but the same fact is illustrated every day in thousands of cases less conspicuous than this. Every observant and thinking man knows that his animals serve him better when properly treated than when neglected or abused. The horse will do more work, the cow will give more milk, the hen will lay more eggs and the hog will lay on more fat when well used and well fed.

The intelligent farmer and teamster do not need to be told these things, but, unfortunately, there are men who have not discovered the secret of success with animals and who vainly try to extract from them through abuse what could easily be reached by way of kind treatment. For this reason organizations that are extending the gospel of kindness to animals are deserving the highest praise and all the assistance that any person has the power to lend.

The teaching and practice of kindness to the dumb creation is not only humane and noble, but it is good business policy, and it is well that this should be made as widely known as possible. Such kindness reacts upon those who practice it and the world is thereby made better. "The merciful man is merciful to his beast," says the Good Book, and nothing is truer. He who is kind to animals is sure to be considerate of his fellow men. For all of these reasons kind treatment of all dumb creatures should be constantly taught and practiced, and every child should be taught the beauty and nobility of caring tenderly for beings that cannot speak for themselves.

The celebration of the close of the first half century of freedom for the colored race is being celebrated in Chicago, and the people of the country can well afford to give attention to the showing that is made. In spite of many obstacles and discouragements the negroes have made remarkable progress in education and industry, and without doubt the record will be eclipsed many times over by the developments of the next fifty years.

The governors recently assembled in Boston for their annual conference adopted resolutions expressing their confidence in President Wilson and their readiness to "follow your leadership in all matters which you may deem best to promote the honor and maintain the peace and welfare of the nation." It must be a great comfort to the president at this trying time to know that he has the people so solidly behind him.

The United States commissioner of education thinks the government should establish a university in Washington for the express purpose of teaching brotherly love. He estimates that the cost would be \$10,000,000 a year. But what would there be left for the churches to do after the teaching of brotherly love had been taken over and so generously provided for by the government?

The Boston fish market was swamped the other day when forty-one vessels came into port with 2,500,000 pounds of fish. Prices collapsed and tons of the fish had to be sent to drying and salting establishments. The fishermen were in a position to sympathize with the Massachusetts peach growers, whose market has been paralyzed by heavy shipments from other states.

Labor Day is close at hand and in numerous places preparations are being made for great demonstrations. Properly observed, the day should be one of benefit to those who work with their hands and to all classes of the community.

Recent big profits on Bethlehem steel have evidently had their effect on the workers, who want more pay and have dropped their tools and walked out to "see about it."

Reports from many quarters indicate that the disagreeable weather of the past two months has been highly favorable to the mosquito crop.

Henry Ford of automobile fame wants peace. So does President Wilson, but the latter insists upon conditions.

## PRESIDENT WILSON WILL STICK TO JOB

Will Remain in Washington  
Pending Action on Arabic  
by Berlin.

Washington, August 29.—President Wilson decided definitely today to remain in Washington until the situation between the United States and Germany is cleared up. Officials have been urging him to go to Cornish, N. H., for a rest but he has announced that he will stay pending the receipt of further word from Berlin.

The President, it was said authoritatively, has been led by the statements of Count Von Bernstorff, the German ambassador to Secretary Lansing, and reports received from American Ambassador Gerard at Berlin to hope that a solution for the submarine controversy with Germany will be found. He is waiting, however, for the imperial government's formal disavowal of the attack on the American liner, the lives of Americans traveling on unarmed merchantmen will not be endangered again.

The President had planned to spend the entire month of September at Cornish but today it was said to be unlikely that he would return there at all this year.

Count Von Bernstorff left today for the summer embassy on Long Island. He was still confident that within a short time a formal communication would reach Washington from the Berlin foreign office, disposing of the situation growing out of the sinking of the Arabic and paving the way for an amicable adjustment between the American and German governments. The ambassador probably will return to the capital until the note from Berlin arrives.

## PEOPLES' OPINION

Wants More Activity

Editor:

A great deal has been said pro and con regarding the N. E. Veterans' Firemen's Muster which is held annually in one of the New England cities. As I understand the situation, the local veterans have been anxious to have the muster held in Portsmouth and have worked with that object in view for the past several years. If I am correctly informed, the Board of Trade has not given the men the encouragement that they should. Attractions of this kind are a great benefit to any city. Every year the five cities of New England are putting in a claim for the event. Portsmouth should wake up and get on the map. The writer has no desire to criticize the management of our Board of Trade, but it does seem ridiculous that they should sit idly by and allow a big circus to come here on a Saturday and take away several thousand dollars, without protest, and on the other hand lend an encouragement to an event that would bring thousands of dollars to our city.

The writer is not fully informed as to the expense of promoting one of these musters, but if cities and towns like Andover, Marblehead and Swampscott can finance them and come back the next year for more, it does seem that Portsmouth should be able to do the same, more particularly during the month of August when our summer visitors are most numerous. Why not begin now and lay plans for next year? Why not have a two-day celebration, the first day to be known as Mayor's Day. Invite all the New Hampshire mayors. Concentrate our state militia in Portsmouth; make an effort to have several war ships at the station; feature a parade comprising soldiers, sailors, floats, etc.; have a line of sports at the playground open to all New Hampshire athletes, and wind up with fireworks in the night. On the second day let us have the New England Veterans' Firemen's Muster. The muster would attract hundreds of summer visitors stopping at nearby beaches who are citizens of southern and western states, where events of this kind are yet unknown. What Portsmouth people lack is ambition. We need new life; something to get the business men together for real action. We have made a start in organizing the South Eastern New

We should interest ourselves in several other ventures that would be beneficial to our city. Let us get together right away and start something for next year. By all means let us have the muster. Let the local organization of Veterans arrange to have a meeting for this purpose and invite the public generally to attend and see what can be done. The writer believes that in the past, discussion of this matter has been too restricted. Invite all our people to interest themselves. Get together you vets, call your men together for a preliminary meeting, invite some of your live friends, ventilate opinions and suggestions and work for the muster next year as part of the two-day celebration above referred to. If we cannot have a celebration as above proposed, hustle for the muster anyway.

J. P. M.

## PLAN TO ESTABLISH A DEAD LINE

Washington, D. C., August 30.—The U. S. plans to establish a "deadline" along the Mexican border. Practically the entire force that has been massed at Texas City with the exception of one regiment which is to go to the Philippines, will be distributed along the Rio Grande. They will put down bulwarks with an iron hand. Mexican bandits who try to cross with arms in their hands will be killed on sight. In addition an iron clad embargo will be placed on all exports to Mexico of munitions. From the U. S. in other words the administration is determined that the practices which forced Huerta out of power in Mexico City will be resorted to to put into power the provisional president to be selected by the peace conference that is to be fashioned by the U. S. and the leading South American republics. Neither Carranza or any other factional leader who does not subscribe to the plan will be able to get arms or supplies at any time and the state department is taking pains at the present time to see that all of Carranza's generals have this fact impressed on them.

## BRITISH MAY HAVE CAPTURED SUBMARINE

(Special to The Herald)

Washington, D. C., August 30.—Reports that the German submarine believed to have sunk the Arabic had been captured by the British navy or sunk, are beginning to find evidence in official circles here. The long delay in reporting has caused naval officials who have been closely following the Arabic case to believe that the U. S. boat probably has been lost. Secretary Lansing was asked today whether his department had received any word yet except that the submarine was missing. He replied that he had received no word as to its fate. Whether the U. S. will wait indefinitely for the missing boat to turn up and report could not be learned.

## GERMAN EMISSARIES AT WORK

Petrograd, August 30.—That agents of Germany are secretly attempting to spread panic among the Russian people in order to create a demand for peace, is the charge made in an official statement issued by the war office today, as a result of a discovery made by the Russian secret service officers. It was learned that more than 200 men and women have been arrested, who, posing as patriotic Russians, were in reality German citizens, in pay of the German government. The Russian officials assert.

If you want to keep posted read The Herald.

## THE EMPTY TREES

Why pole the trees that have no persimmons on them? In other words why waste advertising money on large sections of the country where there is little or no hope of returns? Why not concentrate on the places where business is ripe? In other words why not advertise in the newspapers of the cities where the goods are well distributed? This kind of use of the pole lands the greatest quantity of ripe and juicy fruit.

## OLD TIP TOP HOUSE IS NO MORE

Old Landmark on Mt. Washington a Prey to the Fire Fiend.

Mount Washington, August 29.—The Tip Top House, one of the landmarks of New Hampshire's highest peak, was burned to the ground shortly after 7 o'clock this morning. Fire starting from a defective chimney, swept through the structure, and because of limited fire fighting facilities available summer residents and attaches of the new Summit House, could do little but stand by and watch the building burn. Bucket brigades were put into operation early in the game, but water was scarce and these efforts proved of little consequence.

The Tip Top House has been unoccupied except for storage purposes since the new Summit House was opened a little over a week ago. The fire which caused its destruction is believed to have been started in the kitchen stove by workmen. The high wind carried sparks and blazing embers perilously close to the new Summit House situated less than 200 feet away, but by diligent work these were prevented from doing any damage. The loss is estimated at about \$3,000.

## SUBMARINE E-4 FLOATED AGAIN

Sunk in Honolulu Harbor on  
March 26 With Crew  
of 21 Men.

Honolulu, August 29.—The United States submarine recently submerged outside the harbor here since March 26, last was refloated tonight and towed to the quarantine station in Honolulu bay.

The submarine E-4 commanded by Lieut. Alfred L. Ede and with a crew of 21 men went to the bottom of the harbor of Honolulu March 26 during maneuvers of the "F" squadron. She was located two days later and Diver John Agniz of the navy descended 213 feet, establishing a new world's record in an effort to facilitate the work of bringing her to the surface. Her crew it was said, might have been alive at this time, but attempts to rescue failed and on March 30, Rear Admiral C. T. Moore, commanding the Honolulu naval station, reported that the E-4 lay in 270 feet of water, and would have to be raised by pontoons.

Secretary Daniels announced that the boat would be raised at any cost in order to determine the cause of the accident and diving apparatus and divers were sent out, leaving San Francisco April 6 on the cruiser Maryland. One of the divers, Frank Grilly, went down 228 feet the next day and was seriously injured by water pressure. These men put lines on the E-4 by which the boat was dragged slowly up the shelving bottom, but in the process the stern was wrecked and broken, and work was halted to await the arrival of pontoons.

Six of these, capable of lifting sixty tons, each were sent from the Mare Island navy yard early in August on the Maryland. At the time of the accident reports gained circulation that the E-4 was not in good shape when she went below water. These were officially denied.

## NAVY YARD NOTES

After More Work

Constructor Adams on his recent visit to the department at Washington had a conference with the head of the bureau of construction and repair relative to more manufacturing for the local yard in the way of pipe-fittings. For many years the government work has been delayed owing to the failure of outside firms to deliver valves on time and the navy department has under consideration the plan to turn out itself, all composition valves, couplings, unions, etc. The Portsmouth yard is equipped for this variety of work.

Sent to Hospital

Peter W. Maher, Chief Yeoman, attached to the receiving ship Sontherly for the past seven years was removed to the yard hospital on Saturday for treatment.

His First Visit

Admiral H. K. Stanford, chief of the bureau of yards and docks arrived at the yard today from Washington and is making his first inspection of the department of public works at the local station.

He's All Smiles

Chief Electrician Malcolm Bradnard on duty at the yard radio station today with a smile today. The smile is the result of a visit from that ever-

## CURRENT OPINION

International Quarrels  
Could Be Settled by a  
League of the Great Powers

A league of peace could be formed which would enable nations to avoid war by furnishing a practical means of settling international quarrels or suspending them until the blinding heat of passion had cooled.

In no way has the direct interest that neutrals have in preventing a war between neighbors been so clearly made known as now. This interest of neutrals has been so forced upon them that it would require only slight development and growth in the law of international relations to develop that interest into a right to be consulted before such a war among neighbors can be begun.

This step we hope to have taken by the formation of a peace league of great powers, whose primary and fundamental principle shall be that no war can take place between any two of the league until they have resorted to the machinery that the league proposes to furnish to settle the controversy likely to lead to war.

If any member refuses to use this machinery and attacks another member of the league in breach of his league obligation, all members of the league agree to defend the member attacked by force.

We do not think the ultimate resort to force can be safely omitted from an effective league of peace. As long as nations partake of the frailties of men who compose them war is a possibility, and that possibility should not be ignored in any league of peace that is to be useful.—By Former President William H. Taft.

busy bird, the clerk, who left a bouncing boy in the family.

Reports for Duty

Past Asst. Paymaster G. M. Adeo, reported at the yard today where he will succeed Past Asst. Paymaster A. G. Heerne as head of the accounting department.

## PORTSMOUTH YARD THE LOWEST BIDDER

For the Construction of the  
U. S. Coast Vessel  
Surveyor.

The following bids were received by the superintendent, coast and geodetic survey, Washington, Aug. 25, for the construction of the U. S. coast and geodetic survey vessel Surveyor: Mantoway Shipbuilding and Dry Dock Co., Manitowish, Wis., \$189,000. U. S. Navy Yard, Portsmouth, N. H., \$220,000.

Ellen Machine Corp., Baltimore, Md., \$221,800. U. S. Navy Yard, Puget Sound, Wash., \$229,734. Pusey & Jones Co., Wilmington, Del., \$242,473. U. S. Navy Yard, Philadelphia, Pa., \$163,250.

Seattle Construction and Dry Dock Co., Seattle, Wash., \$210,000. Anderson Steamboat Co., Seattle, Wash., \$211,700.

U. S. Navy Yard, Norfolk, Va., \$244,245. Spedden Shipbuilding Co., Baltimore, Md., \$266,700.

## PORTSMOUTH THEATRE

Program for Monday and Tuesday.  
Picture—"The Road O' Strife"—Lubin Drama.

This is the 10th story in this serial called "The Unsparring Sword." In the last installment, Alina was sent to jail for a murder suspect, what happens in this number shows that there is exciting incidents to follow. Grand Wilbur featured.

Act—PELZER AND WHITE—Travesty singing artists.

Picture—"Ashes of Inspiration"—Two-reel Biograph Drama.

With a pretty girl for inspiration and her jealous suitor to make trouble, the outcome can almost be imagined. Great artistic beauty of the seashore locations is fine.

Act—IDA BAYTON—"The Violin Girl."

Picture—"A Keyboard Strategy"—Vita-graph Comedy, featuring Lillian Walker.

He flirts with the pretty blonde typist. She takes the conceit out of him, she falls in love with him. He gets in wrong, but a letter sets him right—then wedding bells.

Act—"THE GARDEN OF ROSES"—A musical comedy. Cast: Otto Schmalz, Joe J. Field, Duke De Hacholavitch, Bert Bernard, I. M. Conn, William Lester, Mrs. Conn, Nona Perls, Misses Bernard, Rogers, Lester, Bauer, Ward and Evans.

Picture—Hearst-Selig Weekly. Giving you all the latest and interesting facts of the world at a glance. Be sure to bring the children!

Wednesday and Thursday  
"The Melody of Doom"—Selig Drama in two parts.

Feel languid, weak, run down? Head-ache? Stomach "off"? A good remedy is Burdock Blood Bitters. Ask your druggist. Price \$1.00.

## WOULD NOT ACCEPT HIS RESIGNATION

Reports in navy circles have it that Passed Assistant Paymaster Alonzo G. Heerne recently tendered his resignation to the navy department, following the orders detaching him as head of the accounting office at the navy yard and directing him to proceed to Oshkosh, Wis., for duty. The navy department it is said, refused to accept his resignation for reasons not made public as yet. Later the orders sending him to the Philippines were revoked, and he was ordered to his home at Kittery to await the next move of the department, which sent him to Haiti on the U. S. S. Tennessee from Philadelphia.

## IMPORTANT WORK FOR C. D. HOWARD

Former Portsmouth Man Now  
in Charge of Children's  
Aid Society.

Caleb D. Howard, former physical instructor of the Y. M. C. A. in this city, now superintendent of the playgrounds at St. John, N. H., has been elected as agent of the Children's Aid Society of that city.

The Children's Aid Society has been advised that the municipal grant of \$1,500 is now at its disposal and will be at once begin active work. The two organizations above named have come to an arrangement by which the work of the boys' club and other work for children in which Mr. Howard is engaged will still be carried on and he will also act as agent for the Children's Aid.

The two kinds of work will fit admirably together, says the St. John Times, and his experience will be of much value. Since the Children's Aid Society has not as yet sufficient funds to establish a shelter and employ a matron, the work will be taken up gradually and it is felt that before many months is past the need of a shelter and ample funds for the work will have been so fully demonstrated that the people will rally very heartily to its support. Another very important forward step has been taken in welfare work of St. John. Several pitiful cases of child neglect lately reported will be investigated and action taken as soon as possible.

## ON PLEASURE BENT.

Two Young Men Start on Two  
Weeks' Sight-Seeing Trip.

Two local young men, Albert Griggs and Frederick Harmon left Saturday afternoon for a two weeks' trip to Toronto, Canada. They left Portsmouth on an afternoon train for Boston which connects with the Fall River boat train. From there they left for New York on the steamer Princeton where they arrived on Sunday morning.

Sunday and today was passed in seeing New York and Coney Island. Tuesday they will go up the Hudson to Albany, and thence to Rochester, Syracuse, Buffalo and Niagara Falls. Here they will spend a whole day, and on Friday leave for Toronto. While in this city they will visit the Canadian National Exposition, the largest annual exposition in the world. Three days will be passed in this city, and on Tuesday, September 7th they will leave on the return trip. The first city visited, homeward bound will be Detroit where they will go through several of the automobile factories there. From Detroit they will go to Toledo and Cleveland and thence to Montreal and the Thousand Islands. They will return via Portland and reach Portsmouth Sunday, September 12.

## "A GARDEN OF ROSES" FOR THREE DAYS

"A Garden of Roses" is the title of a snappy little musical comedy playing for three days at the Portsmouth Theatre. This number is direct from New York and was one of the season's successes. Ten people appear in the cast, four principals and six pretty chorus girls that know how to sing and dance. This act is entertaining in the best sense of the word as it is clean and comedy and funny in its situations.

The musical numbers have been chosen from the latest New York successes and are presented in a pleasing and entertaining way. It promises to be one of the most satisfactory musical acts that the theatre has presented for many seasons, and they have shown some fine ones so far.

Another act that will give the highest tone is Ida Dayton, known as the "Vocalist". She is a wonderful musical artist and will thrill her audience with her musical skill.

Deley and White, travesty singing artists, something entirely different, completes one of the very strongest bills yet offered.

### OBITUARIES

Mrs. Florence A. Allen  
The funeral of Mrs. Florence A. Allen was held from her late home at 230 p. m. Monday, August 29th, at the home of her parents, Mr. and Mrs. Charles D. Allen, 327 Court street, Charles D. Allen, aged 1 year, 9 months, 20 days.

### OBITUARY

Charles Dudley Tilley  
On August 29th at the home of his parents, Mr. and Mrs. Charles D. Tilley, 327 Court street, Charles Dudley Tilley, aged 1 year, 9 months, 20 days.

Can accommodate a limited number of pupils. Terms reasonable. Apply at No. 52 Daniel street for further particulars.

## KITTERY

Breezy Items from the Village Across the River.

Mrs. Stephen H. Paul of Lynn, Mass., arrived Saturday for a visit with her parents, Mr. and Mrs. Walter Hall of Otis avenue. Mr. Paul passed the week-end in town.

Mrs. William Wurm of Walker street is entertaining her father, G. M. Shopp of New York.

Louis Gray of Manson avenue resumed his duties at W. S. Jackson's, Portsmouth, this morning, after enjoying a week's vacation.

Mrs. Charles Heeneey and son, Leslie, of Central street are passing a week with relatives in Somerville, Mass.

Mr. and Mrs. Willard Goodwin and two sons of York passed Sunday with Mr. and Mrs. Arthur O. Goodwin of Dame street.

Samuel Bates has concluded his duties at Prince's Market and has accepted a position on the navy yard.

The Ladies' Union of the First Methodist church will serve a fish chowder and harvest dinner in Caswell's Grove, North Kittery, on Labor Day. If stormy the dinner will be served in the church vestry. Sports will be participated in during the dinner.

Many attended the evening service at the Second Methodist church on Sunday and heard the interesting address by Mrs. Maude Williams Smith of Saco, on the work being accomplished by the York County Children's Aid Society.

Reynold Heeneey returned to Cambridge, Mass., on Sunday after passing a two-weeks' vacation at his home on Pine street.

The Fancy Work Club will meet on Tuesday afternoon with Mrs. Walter Latta of Whipple road.

An "Earn a Dollar" social will be given at the First Methodist church, North Kittery, on Thursday evening.

Messrs. Harvey Chandler and John Nicholson and the Misses V. May, Monday and Doris Sprague motored to Old Orchard Beach on Sunday.

A surprise party was given Mr. and Mrs. C. Harlow Chick of Post road on Saturday evening at the home of Mr. and Mrs. Alfred W. Sterling. The affair was given in celebration of their birthdays, both of which fell on the same day. Members of the immediate family were present and a very enjoyable evening passed. The young couple received several handsome gifts as tokens of the day.

Miss Dorothy Waldron of Otis avenue passed Sunday at York Beach.

The Home Garden contest conducted the past few months by the Riverside Reading Club closed on Saturday. Tuesday the judges will make their tour of inspection and the winners announced later.

A meeting of the Boy Scouts will be held on Tuesday evening at 6:30 o'clock in the vestry of the Second Methodist church.

Professor John A. McIlwaine of Mt. Airy School, Philadelphia, is the guest of Mr. and Mrs. John O'Rourke of the Intervene.

A very finely illustrated stereopticon lecture on Japan was given on Sunday evening at the Second Methodist church by Miss Alice True. There were many beautiful views and Miss True's address was most interesting and instructive.

Roy Abrams of Lowell, Mass., accompanied by his friend, Miss Reynolds, are passing a few days in town the guests of his parents, Mr. and Mrs. Washington Abrams of the Intervene.

Rev. A. J. Hayes will conduct a service at the naval prison this evening.

Miss Mary Durgin of Newson avenue has returned from a visit with relatives at Brant Rock, Mass.

An official board meeting of the Second Methodist church will be held on Tuesday evening following the prayer meeting.

Norman Moore of the Junction has returned home after passing a week at Brant Rock, Mass., with friends, and on Saturday evening assumed his duties at the B. and M. freight office, Portsmouth.

Holls Cole has accepted a position at Prince's Market.

Dr. J. M. Frost will give a stereopticon lecture on missionary work in Asia at the Second Methodist church at 7:30 o'clock this evening. Dr. Frost is the newly elected district superintendent for the Portland district and many will be glad to hear him as this is his first appearance in public here. No admission will be charged, but a silver offering will be taken during the service.

Mr. and Mrs. Everett Pettigrew have returned to their home in North Kittery after passing the week-end at Jackson, N. H.

A fine program has been prepared for the entertainment to be given on Wednesday evening under the auspices of the entertainment committee of York Rebekah Lodge. A sale will also be held in the afternoon. All members solicited from are requested to take or send their food to the hall in the afternoon.

Karl Chick of the Junction is clerking at Hobbs & Sterling's store for a few weeks while the other clerks are on their annual vacation.

The Misses Fannie and Helen Stealing returned to their home in Philadelphia on Sunday after a several weeks' visit with relatives in town.

Mrs. Walter England of Government street left Sunday to meet her husband who is attached to the U. S. S. Lyndas at New York city, where she will pass several days.

The Phobes will hold their first meeting of the season on Friday evening in the vestry of the Second Christian church, and all members are requested to be present.

Mrs. Stephen Grant of Main street is visiting relatives in Nova Scotia.

The Ladies' Aid will meet on Thursday evening in the vestry of the Second Methodist church.

Benjamin Joy of Everett, Mass., passed the week-end in town with his wife, who is visiting here.

A party consisting of Mr. and Mrs. Charles E. Woods and family, Mrs. E. Keefe and Miss Florence Shannon motored to Wells Beach on Sunday.

Mr. and Mrs. Arthur Baker and daughter, Doris, of Love lane, passed the week-end with relatives in York.

Mr. and Mrs. Clarence Woodward of Main street have returned from Jackson, N. H., where they passed the week-end, making the trip by auto.

Mr. and Mrs. John Watts of Locke's Cove are entertaining the latter's sister, Mrs. Carl Atwood of Boston.

Miss Amelia Meyers is quite ill at her home on Government street.

A vegetable exhibit will be held in connection with the sale of home made candies, cakes and aprons under the auspices of the Rebekah Lodge entertainment committee on Wednesday afternoon.

James B. Trefethen of Roxbury, Mass., was the recent guest of his brother, Frank Trefethen, of Locke's Cove, and was heartily greeted by his many old friends in town. Mr. Trefethen, although aged 77, is strong and vigorous as a man at fifty.

Miss Edna Jackman of Lynn, Mass., is the guest of Mr. and Mrs. George Hayford at the Gopher's Nest, Locke's Cove.

Calvin H. Staples Jr., of Elliot, who was arrested by Deputy Sheriff Maurice Leach Saturday morning, was arraigned in the Kittery police court this morning before Judge Shaw and pleaded guilty to drunkenness. Staples was sent to Alfred jail for thirty days and ordered to pay costs. This will hold the man in jail until the September term of the county court. Other charges which were pending against him were not heard by the Kittery court. It is expected that Staples will be indicted for larceny and for breaking out of the Kittery lock-up recently.

On October 1, all railroads in the state will be required to comply with the following law passed at the last legislature:

Section 1. All railroads transporting lumber within this state which is loaded therein shall equip all cars with proper stakes and wire such as shall be ordered by the public service commission, when such cars are used as required the same.

Mr. and Mrs. Eugene Cloutier and Miss Marion Randall were recent visitors at Hampton and Salisbury beaches.

Mr. Walter Blake and son Walter of Malden, Mass., are visiting the former's mother, Mrs. Annie Blake of Tenney's Hill.

Rev. Winifred T. Coffin passed the week-end at South Berwick.

## WILL THERE BE A SETTLEMENT IN THE COWLES CONTEST?

(Continued from Page One.)

Harry W. Goodall of Boston as co-respondent. This doctor alleges that Mrs. Cowles spent considerable time in Brattleboro after he had come here to Portsmouth, clearing up some business matters and that she spent considerable time in the company of Mr. Webster.

One of the charges made by Dr. Cowles is that Mrs. Cowles was discontented with whatever he did for her. He states that he spent large sums of money for expensive clothing and jewelry for her and that the stable of horses he maintained for her pleased cost him a great deal. Mrs. Cowles, so the doctor charges, became very tired of all this in a short time.

On Friday and Saturday depositions were taken at the office of Edward C. Stone, Harry C. Sawyer, one of Mr. Stone's partners, was commissioned by Clerk Charles H. Knight of the Hockingham Superior court to take these depositions in Massachusetts of persons summoned by counsel for Dr. Cowles.

Mrs. Cowles and her counsel, Judge Girdell and Col. Bartlett, were present both days and Mrs. Cowles took copious notes of the proceedings as well as her counsel.

At Saturday's session Dr. Cowles was present and when he entered the office where the commissioner was engaged in his work, he greeted his wife with a pleasant salute and it was returned.

This is the first time, with one exception, that the couple had met since Mrs. Cowles instituted divorce proceedings in December last.

Depositions were taken of June Lockwood of Boston, who was a nurse in the Cowles home in this city from October to Dec. 10, 1915, when Mrs. Cowles instituted her proceedings; Harry J. Jaquith of Brookline, father of Mrs. Cowles; Rutherford E. Smith, a Boston attorney; Dr. Austin Bryant of Boston and Meta Taylor, the latter a colored servant who worked for Mrs. Cowles in Brattleboro, Vt., in 1911, when Dr. Cowles first came to this city.

It is stated that nothing sensational or damaging to Mrs. Cowles was given in the depositions.

The case is attracting widespread interest, owing to the prominence of the couple involved, and also to the fact that it has been generally believed a settlement would be reached without a trial.

At the recent conference of counsel

in Boston, it is said, the breach was widened and the prospect of a settlement is entirely out of the question.

The custody of the two children, Mary Haywood, aged 5, and Harriet Virginia, 4, will figure in the proceedings as both Mrs. Cowles and her husband desire their possession.

Last week counsel for Mrs. Cowles caused a dozen or more persons to be subpoenaed as witnesses, including a number from this city. It was learned Saturday night that one or more of the persons summoned from Boston had absented themselves, intending to remain until after the trial was over. Some sensational developments may result from their endeavors to avoid giving testimony.

## PERSONALS

Harry G. Marvin came in from the Shoals today.

Representative Fred C. Smalley of Dover was a visitor here today.

# ORDERS ISSUED FOR ANNUAL ENCAMPMENT

Of Coast Artillery Corps, N. H. N. G., at New Castle, Sept. 7-14.

The following general orders were issued this week by Major Clarence B. Hoyt from the headquarters of the Coast Artillery Corps, N. H. N. G., in relation to the coming encampment at New Castle:

General Orders, No. 1, Headquarters Coast Artillery Corps, N. H. N. G., Portsmouth, N. H., August 23, 1915.

1. In compliance with general orders, No. 23, the adjutant general's office, this command with detachment of medical corps, will assemble at Fort Constitution for duty September 7 to 14 inclusive.

2. The commanding officer of the First Company will have the baggage of his command in readiness for transportation at 8 o'clock a. m., and be prepared to march his command at 10.15 a. m.; the Second Company will leave Lakeport at 7.45 a. m.; the Third Company will leave Exeter at 8.53 a. m.; and the Fourth Company will leave Dover at 10.15 a. m., on September 7.

3. Troops will report in service uniforms with full field equipment. The blue denim uniforms and overalls will be packed with baggage. Officers will wear side arms, canteens and haversacks without pistols.

4. First sergeants will prepare their reports in morning report books and return returns while en route, and submit the same to the adjutant upon arrival at Portsmouth.

5. The quartermaster will proceed to Fort Constitution on September 5, 1915, in order to receive property and prepare the camp. Company commanders will at once designate three enlisted men from their respective commands as an advance detail. The men so detailed will report to the quartermaster at the armory in Portsmouth not later than 9 o'clock a. m., September 5. Acting Quartermaster Sergeant A. L. Smith will report at the same time and place.

6. Each company commander will detail one man to report to the quartermaster upon arrival at camp for duty during the entire eight days.

By order of MAJOR HOYT,  
L. H. WASHBURN,  
Captain, Adjutant.

## CANADIAN STATESMAN MARRIES IN BOSTON

Ottawa, Ont., Sunday.—Dr. William Pugsley, M. P., one of Canada's statesmen, has married Miss Gertrude MacDonald, who was for several years his secretary in Boston, Mass., a daughter to the Ottawa Free Press says. The bride is the only daughter of the late Rev. George MacDonald, of St. John, N. B. Dr. Pugsley was for several years Minister of Public Works, and is now Member of Parliament for St. John.

## WHAT IS TAKING PLACE IN THE TRENCHES AT SOUCHEZ

On the Western German front, Aug. 20—I have seen them and talked to them, the men fighting out there in the trenches of Souchez. Just now they are resting but tonight they will be fighting again like demons. The roads and paths for miles around are under a fearful fire. Almost every second a shell bursts with a deafening roar. Through this inferno they must pass. Then they will be in Souchez.

What is Souchez? A small village which nobody knew a few months ago and which now will never be forgotten again. The little hamlet is marked for all time. If hell keeps books, the name of Souchez must be entered in large letters.

There is nothing left of the village but a heap of ruins. The houses left their places, jumped to the street and collapsed, but its banks are destroyed and it has left the bed through which it peacefully ran for centuries. With a sad murmur the yellow dirty, water flows into the craters formed by explosions of hundreds of thousands of shells.

The trenches are a few hundred yards from the village behind a curtain of fire. Through this curtain, our boys in gray must pass. There are no communicating passages—the artillery of the French on the heights of Loreto does not permit this. The open field is the only way to reach the trenches, and through the unceasing hail of French shells.

But our men are fearless. The fact that many of them may not live to see the next morning has no terrors for them and does not even rob them of their good humor. They are all as brown as berries and the head has peeled the skin from their noses and ears.

Their uniforms were all field-gray at one time, but nobody is able to distinguish their color now. Only the first sergeant looks as though he just came from the tailor shop. His uniform is spotless and his hands are carefully manicured.

With the long nails of his little finger he traces the position on the map. Before the war he was a high school professor, but now he is a soldier every inch of him.

"This is our trench," he said, explaining the map to me. "Over there on the heights, the artillery of the enemy stands."

"Yesterday we were under heavy fire from 9 in the morning until 9 at night. Our trench looked as though a giant steam plow had gone through it. We could hear no see nothing."

"Of course we had losses but that cannot be avoided. A 28-centimeter shell burst near me. The trench was destroyed and we were buried."

"About 9 o'clock in the evening the shells began to fly over us. The enemy was trying to drive back a relief column and to storm what was left of our trench. Our lieutenant, a young man of 19 years shouted a command, and in a moment our trench resembled an ant heap. We dug ourselves out. Most of our guns had become useless, and we had hand grenades."

"The French swooped down upon us but we sent a couple of dozen grenades into their ranks. Standing in the shell craters we threw more bombs. The smoke was so thick that we could not see each other."

"For a moment the enemy recoiled, but then believing us finished, he advanced again, as he had received reinforcements, yelling, singing and laughing, we threw still more grenades."

"At the same moment we noticed that the Frenchmen were also beginning to attack from one of their trenches as at our right, in the direction of the sugar refinery. Like peas from a barrel they came pouring out of the smoke. The lieutenant shouted: 'One man to the front with grenades!' A single soldier advanced and started to throw bombs. Who was it?"

"I did it," answered one of the men, a farmer from Silezia. "I took an account of grenades and fired away at random, but the bombs hit their mark."

The Frenchmen fell back. When they advanced again I had no more bombs and had to run. They sent valleys after us but I safely reached our trench."

"We could do no more," interrupted another soldier, a youth of barely 20 years. "It was impossible to hold that section of the trench as it had been completely destroyed. There was nothing left of it."

"That was no reason to give up the trench," said the first sergeant reproachfully. "You still were twelve men and should have held out."

Then the non commissioned officer continued:

"The Frenchmen believed themselves sure of their success but our lieutenant was ready for them. He sent 8 men ahead into the craters and the five of this little detachment moved the enemy down when he came on in close formation. In the meantime our machine guns had been brought into action and the French were driven back in front and on our flank."

"For a short time the enemy took possession of our destroyed ditch, but he could not hold it. When we retook it by a counter attack we found it filled with the bodies of dead French soldiers. We quickly dug ourselves in again, but tomorrow the repaired ditch may be in the hands of the enemy again. Then we will have to retake it again and so it goes on."

## NEWINGTON

The farmers are still busy harvesting their hay. They make slow progress owing to the frequent rains and September will find men still in the hay fields.

Mr. and Mrs. James Burnett McCreary and Mr. and Mrs. Cyrus Fink are taking an auto trip into the White Mountain district.

Miss Ivy Wright of Danvers, Mass., is passing two weeks with friends in town.

Miss Martha Hoyt, who has been home for a few days has now returned to Salem, Mass.

Miss Esther Pierce and Miss Isabelle MacMahon of Peabody, Mass., are passing a week of their vacation with Miss Mary Pickering.

Mrs. Lambert and daughter Clara of Holyoke, Mass., who have been the guests of Rev. Mr. Berkeley and wife have now returned home.

Mrs. Joseph W. Cowles of Brookline, Mass., is the guest of her sister Mrs. Henry Barnes.

Mrs. Pearl Foss of Portsmouth has returned home after passing two weeks with her brother Mr. William Furber.

Mrs. Bennett and daughter Justina were visitors in town recently.

Dr. Fox, wife and son Kenneth, and Lewis Hannum of Wethersfield, Conn., were calling on their cousins, the Misses Mary and Abbie Pickering on Monday.

The school rooms are being cleaned and put in readiness for the fall session which will begin Sept. 13th.

A new carpet has been purchased for the church of Margaret Brothers, who are now laying it. The new carpet and newly painted walls will improve the appearance of the interior of the church.

Mr. Morton Hoyt and son Benton of Portsmouth were in town recently, calling on old friends.

**A GREAT PRIESTHOOD DIVINELY APPOINTED**

"Thou Art a Priest For the Age After the Order of Melchisedec."

God's New Order of Priesthood—Each Member Called and Chosen—The Great High Priest—His Sacrifice of Himself—The Under Priests of This Order—Membership Limited in Number—The Purpose For Which This Priesthood Is Ordained of God.

Albany, N. Y., August 29.—Pastor Russell delivered a masterful discourse here today. His text was, "No man taketh this honor to himself but he that is called of God, as was Aaron."—Hebrews 5:4.

The Epistle to the Hebrews, the Pastor pointed out, shows that God had ordained a higher priesthood than the Aaronic Order of the Mosaic arrangement; and that upon our Lord Jesus was conferred the great honor of being the Head of the New Order, the Church being under priests. While on earth Christ could not be a priest; for Aaron's family constituted a Divinely ordained priesthood, in which none others could presume to take part without God's invitation. To this day the Jews respect the Aaronic priesthood, and since they cannot know who belongs to Aaron's family, they have no priest and no such service as a priest could render.

The thought of another priesthood astonished the Jews of St. Paul's day. They could not understand how any priesthood could be higher than the Aaronic Order. Nevertheless, through the Prophet David, God had long before declared our Lord's Priesthood: "Thou art a priest forever after the Order of Melchisedec." (Psalm 110:4) Elsewhere we read that Melchisedec was "the priest of the Most High God"—"a priest upon his throne." (Genesis 14:17-21; Hebrews 7:1-4) God has conferred a very great honor upon our Lord, has appointed him to be the world's Redeemer, High Priest and King, through whom will come all blessings designed for humanity.

"Worthy to Loose the Seals"

The speaker then demonstrated that before our Lord could be thus highly exalted, He must be thoroughly tested and proved worthy to be the great Antitype of Melchisedec. Amongst other Scriptures examined was our Lord's own statement, as recorded in Revelation 5, where the Divine Plan for human deliverance from sin and death is pictured: God is shown as seated upon His Throne, holding in His hand a Scroll, written within and without, and sealed with seven seals. This represents the Plan which God had purposed before the foundation of the world, and which was known only to Himself. Throughout Heaven and earth the proclamation was made: "Who is worthy to loose the seals and to look therein?" Nobody came forward.

Finally an angel said to St. John, "The Lion of the tribe of Judah hath prevailed." The Lion was the Strong One of Judah, of which tribe God had prophetically declared that Messiah should come—of David's lineage. The Strong One could do the work; but all mankind were imperfect, incompetent. Jesus was sent into the world perfect—in the image of God. Heretofore no one had proved worthy; for the conditions which God had attached were very stringent. He was looking for One competent to be a Prime Minister, as it were, to represent Him fully and to be associated with Him forever. For so high a position He had purposed that this One should be made partaker of the Divine nature—immortal.

Our Lord must demonstrate His loyalty to the fullest degree before He could be counted worthy of this high exaltation.—1 Tim. 6:16; John 5:26, 27.

According to the Law our Lord could do nothing in His Priestly Office until He was of age. When His thirtieth anniversary came, He presented Himself in consecration to the Father. At Jordan He began to carry out the Divine Plan presented in the Scroll, and mentioned by the Prophets of Israel. There the father opened the eyes of His understanding. There He became the slain Lamb. For three and a half years God proved the One who was to become the antitypical Melchisedec, the Priest upon His Throne, partaker of the Divine nature. Surely He was faithful, even unto the death of the Cross! Now He is highly exalted, at the Father's right hand.—Phil. 2:8-11.

Further Contents of the Scroll.

The Pastor showed that the Scroll also revealed that God had purposed calling out from the world a Church of under priests, to share in the sufferings of Christ and the glory to follow. All the work of the Gospel Age has been with a view to perfecting this company, members of the great antitypical Priest and King. Whoever consecrates himself to God, is begotten of the Holy Spirit and walks faithfully the narrow way of self-sacrifice will become a joint-heir with Christ, a fully accepted member of the great Melchisedec Order of Priesthood. As soon as the last members are completed, the 144,000 will stand with the Lamb upon Mount Zion, ready for the Kingdom work.—Revelation 14:1-5.

# ALL OR NONE

Condorcet, the French mathematician and philosopher, wrote in 1787: "Either no individual member of the human race has any real rights or else all have the same."

## COLLIDED WITH TELEPHONE POLE

### Fred Loring of Kittery Receives Numerous Cuts About the Head in Early Afternoon Mixup

Fred Loring, residing on Rice avenue, Kittery, was badly injured about the head and face this Monday noon while on his way to the navy yard on a motorcycle. Coming from the opposite direction was Dr. D. C. Woodbury of Portsmouth in an automobile. When nearly abreast of the Second Christian church a team was seen coming, and Dr. Woodbury turned out to avoid it and Loring also turned in the same direction. Both the driver of the automobile and the motorcycle in their endeavor to avoid each other crashed into a telephone pole, both machines being quite badly wrecked. Loring was thrown from his machine and sustained a two inch cut in the center of the forehead, an inch and a half cut through the left eye brow as well as numerous smaller cuts on his cheek. He was taken to his home and his injuries were dressed by Dr. Woodbury, assisted by Dr. E. E. Shapleigh of Kittery.

The radiator and mudguard of Dr. Woodbury's machine were badly damaged by coming in contact with the pole.

The accident is said to have been due to Mr. Loring's misjudging the direction that Dr. Woodbury was taking to avoid the approaching team.

the superior court and in default of bail was committed to jail.

#### OBITUARY

**Miss Grace B. Goodall**  
Died on Sunday, August 29th, 1915 in Portland, Me., at St. Barnabas Hospital, Grace Bartlett Goodall, only daughter of Dr. and Mrs. E. B. Goodall. Funeral service private.

#### GRANTED LEAVE OF ABSENCE

Arthur J. Rutledge of the Internal Revenue Service attached to the Boston office has been granted three weeks' leave of absence with pay on account of special meritorious service. He will visit Chicago and other western cities with Mrs. Rutledge.

#### NOTICE

Persons wishing to exhibit fancy work at the Portsmouth fair please communicate with Miss Margaret Goodwin, Tel. 11764.

An investigation will be conducted as to what caused the sinking of the submarine P-4 in the harbor of Honolulu last March.

## COURT ORDERS MRS. BURNS BACK TO JAIL

County Solicitor Albert R. Hatch has received notice from Chief Justice Robert G. Pike to the effect that Mrs. Mary A. Burns will shortly be returned from the state hospital at Concord to the county jail in this city. Mrs. Burns who has been declared sane by the hospital physicians after being under observation for several months must return and stand trial for the murder of her husband who met his death as the result of poison at Nottingham on December 22, 1914. The case will come up at the October term of superior court in this city.

#### INCREASED THE CAPITAL STOCK

At a meeting of the stockholders of the Portsmouth Trust and Guarantee Company held at the banking rooms this Monday morning, it was voted to increase the capital stock \$50,000. This was made necessary by the great increase of deposits in this banking institution.

#### POLICE COURT.

Private Philip Fleming of the 156th Coast Artillery Corps, stationed at Fort Constitution, was arraigned in police court this Monday morning on the charge of committing an unlawful act. On the evidence presented he was held in \$1,000 for the October term of

## WILL NAME NEW POLICE BOARD MEMBERS TODAY

Incidental to the closing up of the state's business for the year, today, the governor and council will have to name police commissioners for Dover, Portsmouth and Exeter. No appointment has been made in Dover and each of the commissioners named for Portsmouth and Exeter have declined to serve. The new commissioners must take office September 1.

## COMING HERE TO MAKE SURVEY

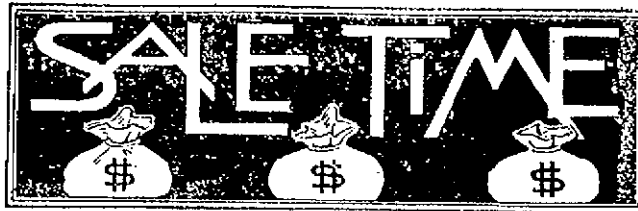

**Special Train With Engineer Corps Will Arrive on Tuesday.**

Early on Tuesday a detachment of several men and equipment from the engineers' corps of the war department will arrive from the Washington, D. C. barracks. They will come in a special train and will engage in survey work about Portsmouth and surrounding country. The men will be divided into detachments and added to the crews of the department which have already been working in Iye, North Hampton, Greenland, Kittery Point, York and other places. This work will continue until the cold weather.

#### LIQUOR SQUAD BUSY.

**Police Visit 20 Places in Booze Hunt on Sunday.**
